

TACHOREMOTEDOWNLOAD

System requirements:

- Dispatch company card to DAKO
- remote-download capable tachograph of the third generation
- remote port clearing on the tachograph in a garage (using DTCO 1381 Rel. 1.3 and Rel. 1.4, using Stoneridge SE5000 Exakt and using EFAS; port for every type: CAN2)
- register your company id and your driver card(s) at www.tachoweb.de

Advantages for User:

- No manual read-out of tachograph data necessary
- Remote controlled read-out and transfer of the tachograph- and driver card data, thereby big time savings
- Encrypted transfer of the signed data via GPRS to the DAKO-Server
- no company card in the vehicle necessary
- compliance with download periods defined by law
